

Sonatic® kit: Reliable LPG level measuring

**Sonatic® Kit ensures a reliable fuel level measuring for your LPG-powered lift truck, thanks to a unique ultrasonic technique. Its advantages are numerous:**

- Extremely reliable measuring
- Even when the lift truck is in motion
- Gauge is clearly visible for the driver
- Fits nearly every lift truck
- Warning LED for minimum level
- Bottles easily replaceable by means of straps
- 1 Year warranty on the product and its components
- Installation time approximately 1 hour

**Due to a more efficient use of your lpg fuel, you will have recovered the cost of the Sonatic® Kit in less than a year!**

A loss in working hours costs you:  
**More than £ 400** per year per lift truck

A loss of LPG costs you:  
**More than £ 350** per year per lift truck

- Presumption:
- 2 unplanned work interruptions per week
  - extra loss of time by unexpected gas bottle replacement approx 10 min
  - labour cost lift truck driver £ 22 per hour

- Presumption:
- 5% remaining volume
  - £ 1.40 per kg
  - Consumption 20 kg per day
  - 250 working days per year
